

ASIF KACHROO

Los Angeles, California · +1-909-569-7570 · asifkachroo@hotmail.com

IT Support Technician with a strong foundation in enterprise technology systems and a proven ability to troubleshoot, resolve, and prevent technical issues across laboratory and corporate environments. I stay composed under pressure and take ownership of problems from start to finish. Known for attention to detail, clear communication, and a hands-on approach, I consistently deliver efficient, secure, and reliable solutions. Passionate about AI, cybersecurity, and continuous growth within infrastructure and endpoint security.

PROFESSIONAL EXPERIENCE

IT Support Technician

Veracyte, Inc. · Full-time

Mar 2025 - Current

San Diego, California, United States · On-site

- Deliver Tier 1–3 support across laboratory and corporate environments, resolving hardware, software, network, and application issues
- Manage user lifecycle in Active Directory and Entra ID, including onboarding, offboarding, access provisioning, and RBAC enforcement
- Deploy and manage Windows (Intune) and macOS (JAMF) endpoints, enforcing compliance and security configurations
- Support lab-integrated systems, specialized diagnostic workstations, and enterprise security infrastructure (Verkada)
- Execute basic SQL queries and collaborate on backend troubleshooting and integrations
- Contribute to SOP documentation and workflow improvements, including AI-driven automation initiatives

Technical Support Engineer

Axelliant · Contract

Oct 2023 - Mar 2025 · 1 yr 6 mos

Torrance, California, United States · Hybrid

- Supported enterprise infrastructure deployments across multi-site client environments
- Performed rack-and-stack installations, switch deployments, structured cabling, and server room buildouts
- Assisted with Cisco Meraki configuration (VLANs, trunk/access ports, uplinks, stack organization)
- Conducted Ekahau wireless site surveys and supported network upgrades and migrations
- Maintained asset tracking and deployment documentation
